HTC Academy

A training seminar for professionals

The HTC Academy has since 2004 educated thousands of satisfied professionals. Many of them participate the Academy annually to stay up-to-date with the latest flooring solutions, grinding machines and diamond tools.

We believe that the HTC Academy is an excellent forum to stay up-to-date and to ensure you have the knowledge about all the new floor concepts that constantly are developed. A lot is happening in the industry and there is a constant development forward. The Academy program is shaped not only towards new participants but also towards all of you among our customers that have previously already participated in the HTC Academy.

The course includes both theory and hands-on training. All participants are given the possibility to try out the latest floor grinding equipment available from HTC that simplifies and streamline the grinding process.

The topics during the one and a half day course:

1. Product information

- Machines
- Dust extractors
- Diamond tools

2. Floor concepts

- Floor prep
- HTC Superfloor™
- Natural stone / Terrazzo
- Wood floors
- Screed products

3. Other

- Concrete
- Grinding technique
- Sales argument
