

HTC GREYLINE™ 25 D

A dust extractor that works on 110v

HTC Greyline™ 25 D is a 110 or 230 volt dust extractor with a maximum theoretical airflow of 200 cfm. It is powerful enough to handle the HTC 270 edge grinder and smaller HTC Greyline™ grinders.

Use with following floor grinders:

- HTC GL 450
- HTC GL 270
- HTC 270 EG

HTC GL 25 D Technical Data

Item Number	501660 (230) 113410 (110)
Approximate Weight (lbs)	123 lbs
Required Circuit	Single phase / 230 volt Single phase / 110 volt
Motor Output HP	3.3 HP
Max/ Theoretical Airflow (cfm)	200 cfm
Dim. Operating LxWxH	33" x 23" x 62"
Dim. Transport LxWxH	33" x 23" x 47"

HTC GREYLINE™

HTC Greyline™ is a cost effective line of simple and easy to use floor grinding equipment, diamond tooling and accessories for contractors and DIY.

HTC Greyline™, world leading technology in a powerful and cost effective package! Simplicity added!

THE BENEFITS

Clean air

To maintain clean air, all HTC's dust extractors use HEPA 13 air filters. A HEPA 13 filter traps 99.97% of all airborne particles bigger than 0.3 microns and is the most effective filter available.

Low height

To use as little space as possible during transportation the machine is easy to adjust in height. During transportation the height is only 47 inches.

Easy to service

The optimized construction provides a machine that is easy to maintain and service, leading to a low maintenance cost.

Longopac

Longopac makes emptying the dust bag both faster and easier. It is also economical since 100% of the bag material is used.

Handy

The vacs are constructed with a robust and stable chassis. Plus, both vacs have large rubber wheels making them very easy to move around.

HTC Greyline™ simplicity

HTC Greyline™ means easy grinding. Just connect the dust extractor with the machine and start grinding.
