# HTC GREYLINE™

HTC Greyline™ is a cost effective line of simple and easy to use floor grinding equipment, diamond tooling and accessories for contractors and DIY.

HTC Greyline™, world leading technology in a powerful and cost effective package! Simplicity added!

## THE BENEFITS

### Keep customers - create more sales!

Why sub-contract when you can do it yourself! There is a good profit margin to be made for simple coatings removal and concrete preparation.

### Ultra-fast change of diamond tools!

HTC EZchange™ is the world's most widely used tooling system for grinding machines. The unique diamond tools can be changed in seconds, and fit all HTC grinding machines.

### Easy tool choice

The only tools needed for removal of coatings and leveling of concrete are four standard tools in different grit sizes.

### World leading technology

The secret to Greyline's efficiency and versatility is the planetary drive. Grinding works on all surfaces with a flat, leveled floor as the result.

### Edge grinding accessory kit

An accessory kit is available which turns the HTC Greyline™ 270 into an effective edge grinder.

### Machines separated for easy transport

All floor grinders in the HTC Greyline™ series will allow the motor to separate from the chassis to make transporting the machine easier.
