

HTC Superfloor™ SP Stain Protection

HTC Superfloor™ SP is a copolymer formulation that improves the surface sheen and stain resistance of conventional concrete, hardened concrete or cement terrazzo floors. Surfaces treated with HTC Superfloor™ SP resist damage from water or chemical attack. Ideal for application on colored concrete, HTC Superfloor™ SP protects and enhances the color intensity of integrally colored and color stained concrete.

HTC Superfloor™ SP provides a long lasting, high gloss finish that maximizes light reflectance and eliminates the need for floor waxes, liquid polishes and conventional resin based coatings.

Caution Over application can increase maintenance cycles and cost.*

Advantages

- Low odor. Easy to apply. Fast drying.
- Produces a long lasting, high gloss finished concrete floor with maximum light reflectance.
- Eliminates the need for floor waxes, liquid polishes and conventional resin based coatings.
- Further improves the surface sheen and stain resistance of floors treated with HTC Densifier.
- Tested and conforms to California Collaborative for High Performance School Indoor Air Quality standards. Use can contribute to LEED™ for Schools points (EQ Credit 4).
- Gloss and hardness do not reduce slip resistance.
- Breathable and UV stable. Will not yellow, discolor, peel or flake.
- Non-flammable. Non-toxic. Low odor.

Limitations

- For indoor use only.
- Not for use on surfaces exposed to standing or pooling water
