DCI Concrete Dyes

Now put color in your
HTC Superfloor™!

Decorative Concrete Institute

Decorative Concrete Institute has developed two formulas of concrete dye for use on HTC Superfloor™ polished concrete.

- **Water-based Dyes**
- **Acetone-based Dyes**

- Environmentally friendly water-based concrete dyes.
- Powder dyes are shipped in powder form to avoid hazmat shipments.
- Customer supplies acetone.
- Intense colors.
- Specialty techniques can be used.
- Compatible with each other to blend together and form new colors.
- No neutralization required like acid staining.
- Can all be done completely dry.
- Can cover 200 square feet with two applications.

Call an **HTC** representative for more information **1-877-482-8700**
